

A close-up photograph of a dark, textured rock surface, likely a fossil or mineral specimen. The surface is dark grey to black with numerous small, light-colored (tan or yellowish) mineral inclusions or fossil fragments. A ruler is visible at the bottom of the image, showing a scale from 1 to 19 cm. The image is watermarked with "© www.deutsches-natursteinharchiv.de" and "© www.natursteinsonline.de".
